# JOY STARTS HERE

In every strand, there's a story waiting to be told.  
We see more than just hair. We see potential—a canvas for creation.  
A space where design meets purpose.

For over sixty years, we've pursued perfection in Educational Hair. With every product we craft, we're not just giving you tools—we're giving you a promise: a promise of authenticity, unparalleled quality and social accountability.

Our Original Series encapsulates the legacy of a passion passed down through generations. It is for the artists who find inspiration in the familiar. With timeless quality and elegance, we offer tools that become companions on the journey of creative exploration.

Yet, we believe in challenging the norms. The Cap Series is our vision of the future. It's crafted for the pioneers who challenge the norm and champion inclusivity and sustainability. Here we present a world where creativity knows no bounds, where sustainability isn't just a word but a pledge. It's a testament to our commitment to evolve and blend our rich heritage with forward-thinking innovations.

This is more than Educational Hair. This is where innovation meets emotion.

This is where joy starts. But where it goes...?

**THAT'S UP TO YOU.**

# OUR COMMITMENT TO ETHICAL STANDARDS

Our commitment to beauty goes beyond aesthetics; it's a shared celebration of responsibility, craftsmanship and the joy that radiates from every strand.

## **Social Accountability**

As a multi-generational, family-owned company, we took proactive steps to attain our factory's esteemed SA8000® certification.\* The SA8000 standard, crafted by Social Accountability International (SAI), is more than just a checklist audit: it's our guiding light, ensuring alignment with the highest management standards and continual improvement in social performance.

The elements of the SA8000 standard protect our artisans against child labor, forced labor and discrimination while providing them with a healthy and safe working environment, freedom of association and more.

## **Responsible Sourcing**

At the core of our craft lies the essence of hair, and through close collaboration with our trusted suppliers, we've solidified commitments to responsibly source the hair used in our manufacturing process. Each supplier willingly enters a written pact, ensuring transparency about the hair's origin, documentation and the respectful treatment of donors.

## **Protecting the Environment**

We champion sustainable practices in manufacturing our hair. The water utilized during raw hair preparation undergoes a purification process, minimizing the impact of chemicals to restore the purest water to the environment.

\*SA8000 certification solidifies a commitment to human rights by guarding against the use of child and forced labor, discrimination and unfair disciplinary practices, working hours and compensation. Details regarding SAI and SA8000 can be reviewed at <https://sa-intl.org>

Each of our mannequins is a labor of love. Meticulously hand-implanted to mirror natural growth patterns and densities, over 8 hours is dedicated to its creation.

Our careful manufacturing process ensures consistency, offering aspiring and seasoned professionals worldwide a reliable and realistic training experience.

SCAN OR CLICK  
TO LEARN MORE

# THE ULTIMATE GUIDE

Every mannequin is handcrafted with its own set of unique specifications. Each is designed with a purpose: a blank canvas for you to learn, grow and master your craft, no matter the trend or technique.

## **Head Size**

Each head size holds a different purpose. The larger the head, the more hair and surface area to practice on. Our medium head size gives the most authentic experience by mimicking the size of the average human head. The smaller head size supercharges workshops and training sessions by using just the right amount of hair.

## **Hair Type**

Most of our mannequins feature 100% human hair for the most realistic results, while certain products feature a blend of natural hair for added versatility.

## **Hair Color**

Our mannequins undergo a lightening process that excludes chemical treatments, ensuring a range of colors without compromising gentleness. Hair color listed in the product description is based on tone level. Actual color levels may differ based on color brand.

## **Hair Texture**

Hair undergoes a steaming process without harsh chemicals, to achieve varying hair textures. The “mm” listed under each product refers to the rod diameter used during steaming.

## **Hair Length**

We measure mannequin hair using a 90° projection angle from the head. You’ll find two numbers—one indicating the measurement from the front of the head and the second from the nape.

## FORMS

We speak hair design by heart. One distinctive aspect of our approach is how we teach haircutting, using the four basic forms. They are the foundation of any haircut. After these are mastered, the possibilities are endless.

### Solid

These Solid Hair mannequins empower you to embrace risks, even with a classic look. Ideal for bobs, graduated cuts, long hair styles and mastering basic to advanced perming and coloring techniques.

### Increase-Layered

Elevate your skills with our Increase-Layered mannequins, perfect for crafting long, layered sculptures. Experiment with texture, color and services, and unleash creativity with balayage or your spin on ombré effects.

### Uniformly Layered

Experiment with looks from pixie to chin-length with our Uniformly Layered mannequins. They offer a shorter base cut with consistent, equally layered lengths, allowing you to practice dry-cutting, wet-hair design and color techniques.

### Graduated

These Graduated mannequins help enhance your clipper-cutting and fade techniques. Shorter exterior lengths progress seamlessly to longer interior lengths, making it ideal for tapered cuts and fades.

## **ORIGINAL** Series

Elevate your skills with our Original Series. Perfect for workshops, advanced training or at-home/in-school practice, these mannequins are the ultimate tool to help unlock your full potential.

*OS in product listings refers to Original Series.*

## **CAP** Series

Discover a world of limitless creativity with the Cap Series. Unlike traditional mannequins, our innovative design introduces one reusable headform crafted from recyclable ABS plastic. Perfect for all experience levels, interchangeable hair caps effortlessly pop on and off, making the Cap Series a lifelong tool for endless learning.

**SCAN OR CLICK  
TO LEARN MORE**

*CS in product listings refers to Cap Series.*

## PREMIUM Series

Step into excellence with our Premium Series—the perfect canvas to showcase your extraordinary talent.

OMC and WorldSkills certified, these mannequins will help you shine in competitions.

**PIVOT  
POINT**

*PS in product listings refers to Premium Series.  
Michelle mannequin is not OMC or WorldSkills certified.*

## SLIP-ON Series

Our cost-effective Slip-On Series is perfect for students mastering techniques or workshop trainings. The interchangeable masks slip onto one universal headform, saving space and reducing waste.

*SS in product listings refers to Slip-On Series.*

# LET'S FIND WHAT YOU NEED

Use our key to explore the hair texture, color and head size of each product. Every listing also includes a structure graphic, offering a visual guide to both form and hair lengths.

KEY						COLOR								HEAD SIZE			
TEXTURE																	
Straight	Wavy 15 mm	Very Wavy 10 mm	Curly 7 mm	Very Curly 5 mm	Coily 3 mm	Black	Dark	Medium Dark	Medium	Medium Light	Light	Ultra Light	White	Gray	Large	Medium	Small

Now that you know our secrets, let's explore our portfolio:

- All-Purpose
- Color
- Economy
- Long Hair
- Male
- Showcase & Competition
